## SafeSite Floor Mat

The SafeSite Floor Mat is a high-performance matting solution designed to provide excellent ground protection across a variety of environments.

Whether you're working at a construction site, hosting an outdoor event, or looking for a tough flooring solution, SafeSite mats offer a simple, effective, and durable option.

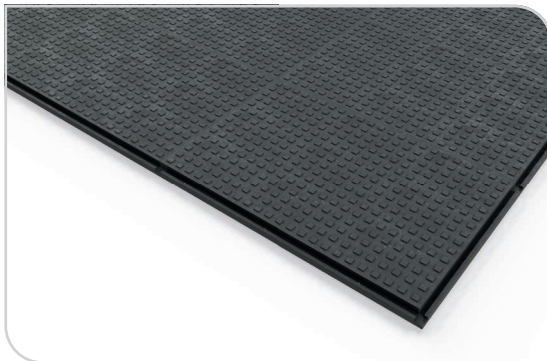

These mats are built to withstand heavy loads, offering reliable ground protection that can handle up to 40 tonnes of weight, making them perfect for both temporary and long-term use.

### Also available in a 22mm depth

Constructed from 100% recycled rubber, this eco-friendly mat offers exceptional durability, making it an ideal choice for projects that prioritise both strength and sustainability. To enhance safety and ease of use, we strongly suggest combining these mats with ramps for seamless transitions.

## Key Features

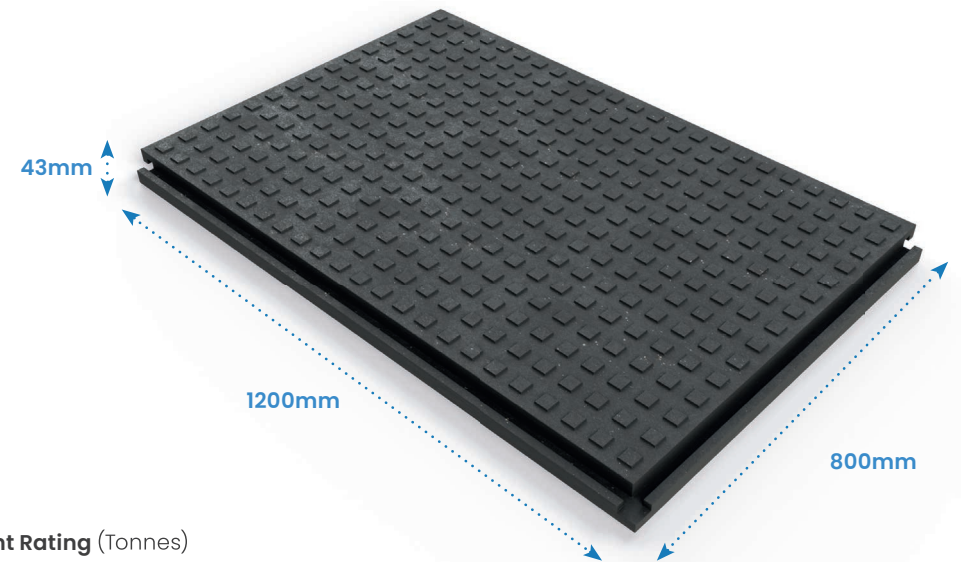

- 100% Recycled High-Grade Eco-friendly Rubber material
- Rated for 20 and 40 tonnes depending on conditions
- Chemical & Oil Resistant – Withstands harsh substances
- Simple tongue-and-groove connection no tools needed
