## Self-Weighted 2 Piece Traffic Cones

Our heavy duty two-piece traffic cones are robust and designed for swift deployment in space marking scenarios, offering a practical solution for redirecting traffic and delineating work areas.

In case of damage by a vehicle, one advantage of the two-piece traffic cones is their replaceable parts, allowing for easy replacement.

Equipped with a retroreflective sleeve, available in single or double stripes, these cones ensure heightened visibility, particularly in low-light conditions.

2 piece cone detached

2 piece cones stacked

### Self-Weighted 2 Piece Traffic Cones Specification

Description	Size (mm)	Weight (kg)
