New product

Plas-Hoard

Many companies now are fully aware of the throw-away society we have become and are looking to reduce their carbon footprint to grow towards being more environmentally friendly.

Key Features:

- ✓ On-Ground or On-Ground solutions available
- ✓ **RECYCLABLE AND REUSABLE**
- ✓ Simple 'Click' together installation
- ✓ Strong & robust design
- ✓ **MANUFACTURED FROM RECYCLED MATERIALS**
- ✓ Adaptable to suit most site requirements
- ✓ Corporate colours & branding available
- ✓ **ECO FRIENDLY**
- ✓ National installation service

*The environmentally friendly
'Click' together hoarding solution*

Made from 50% recycled materials Plas-Hoard is the durable, sustainable new-approach to site hoarding. With straightforward installation, the design retains many of the benefits of more traditional timber hoarding whilst being ecologically kind and affordable. Easy to relocate, store and reuse with no permanent fixings, means reduced risk of damages to buildings and floors where 'dug in' hoardings are not practical.

SafeSite Facilities offers a free site survey and can provide a full National design and installation service.

Furthermore, we can assist in moving to your next project and re-install the hoarding on your next placement, ensuring the hoarding is 100% re-utilised, lengthening the hoarding lifespan.

SafeSite Facilities will also arrange for any damaged panels to be removed from site and fully recycled.

**additional charges may apply.*

'On-Ground' Plas-Hoarding

- ✓ Fully adaptable to suit difficult terrains
- ✓ Zero ground penetration required, eliminating the risk of strikes
- ✓ Simple kentledge system, utilising a fully braced scaffolding
- ✓ frame Flat faced hoarding, ideal for corporate branding
- ✓ Temporary works compliant
- ✓ Strong, robust, safe, fast
- ✓ Bulkhead lighting and CCTV also available

To arrange your free site survey and to discuss your site hoarding requirements, call SafeSite Facilities today. **Tel: 0800 012 5471**

UPVC Boards are available in a variety of colours
