Column Protector

SPECIFICATION SHEET

Column Protectors
S200/S300

The highly visible Column Protector is our newly launched solution to no more damage posts and supporting columns in the factory, warehouse or yard. It is designed to withstand multiple impacts and return back to shape.

The Column Protectors are available in two sizes and fits both square and rectangular posts. It can easily be moved and fitted by one person and is secured with a hook and loop fastening.

Key Features

- Can be used for rectangular shaped columns with extra long strap
- Column guard - Impact protection for columns
- Assemble in Seconds
- High visibility infills available
- Made from linear low density polyethylene (LLPE)
- UV stabilised (suitable indoors and outdoors)
- Wall thickness 6.4mm (1/4")
- Air pressure release to cushion the blow
- Rotationally moulded, UV stabilised
- No fixings required, fits over baseplate
- Available in two sizes
- Fits both square and rectangular posts
